

Meeting Minutes-Group 1
2022-4-11

Attendees: Taimur Tawil, Jennie Q. Colabella, Nick Finelli, Antonio Finelli, Jorge Cruz, Professor Denizard

Discussion:

Timeline until final:

- Presentation: Thursday, May 5, 2022, 6:00-7:00pm
- We need the last week of April to put the finishing touches on the presentation.
- Paperwork needs to be submitted before the presentation.
- Video presentation required for the final presentation must be at least 10 minutes.

Updates

Asfand and Jorge: Styling the payment pages. Continuing work to implement access to authorize.net/API for credit card purchases. Jorge is working on styling the CC page and filling in the forms with pre-generated data.

Nick: Error handling is almost finished. He's almost finished troubleshooting the shopping cart issue. He's working on integrating the cart system into the main program and he projects that will be finished by Wednesday.

Antonio: Working on forms for vendors, clients, employees, and venues. Will create flowcharts. Working on ADA compliance and sessions. A button should teleport you to anywhere else on the site. The main ADA compliance is screen reader (title tags and alt tags), so he'll work on that too.

Tai: Has event order form almost finished. He wants to tweak the start and end time. Will be finishing up the calendar then clean up his code. Then he wants to do a landing page. He'll add a link for an about section to list our sources. Where does the order go after the event order? Is it going directly to the invoice? To the payment page? Tai did a lot of the alt tags, so he may tackle the ADA compliance.

Jennie: Working on Z-report, planning our final presentation. What tax rates do we need for the z report? Just the county of the business?

Professor Denizard: Auto populate authorize.net info. with client address for billing. He explained ADA compliance. The main ADA compliance is screen reader (title tags and alt tags).
