

Meeting Minutes-Group 1
2022-3-24

Attendees: Antonio Finelli, Christopher Moschetti, Nick Finelli, Jennie Q. Colabella, Taimur Tawil, Asfand Alavi, Jorge Cruz

Discussion:

Timeline until final:

- Presentations probably the week of 5/2
- We need the last week of April to put the finishing touches on the presentation.
- Coding completion target probably end of third week of April

Updates

Antonio: Finished searching function classed out with Chris' help. Will check Gantt chart and pick new task(s).

Asfand: Will integrate invoice into main project, then work with Asfand to create an API for credit card purchases.

Jorge: Will integrate cart into main project, then work with Jorge to create an API for credit card purchases. He said PD gave us permission to use authorize.net.

Chris: Working on sessions and user guide documentation.

Nick: Working on ADA compliance. Will integrate the error handling.

Tai: Working on event order

Jennie: Working on z-report

Github: Nick and Antonio want us to use 2 branches (one test and main). Everyone will push their code to the test branch, see if it works, then push to main.
